

Call for Proposals: 2017 City of Dreams Pavilion

Since Governors Island first opened to the public in 2004, the attention and interest that this new public place has received has increased dramatically. Now, each year, roughly 500,000 people visited the island through its summer season to engage in a variety of arts and cultural programs, as well as to enjoy summertime activities like picnicking and bike riding on the island.

FIGMENT has teamed with the **Emerging New York Architects Committee (ENYA)** of the **American Institute of Architects NY Chapter (AIANY)** and the **Structural Engineers Association of New York (SEAoNY)** to host a competition to design and construct an architectural pavilion on Governors Island, the City of Dreams Pavilion. The 2017 pavilion will be our sixth City of Dreams Pavilion. In 2010 the Living Pavilion was designed by Ann Ha and Behrang Behin; In 2011 Bittertang designed Burble Bup; Head in the Clouds by StudioKCA was installed in 2013 and won a Best of Year award from Interior Design Magazine in the installation category as well as a Small Projects Award from the AIA; In 2014 CDR Studio created Governors Cup, which won a AIANY Merit Award in 2015. In 2015, our jury was deadlocked in choosing a winner, and so decided to name two winners: Billion Oyster Pavilion by BanG Studio (from Long Island City, NY) and Organic Growth by Izaskun Chinchilla Architects (from Madrid, Spain).

We are excited to announce we are now accepting entries for The City of Dreams 2017 Pavilion Design Competition!

The City of Dreams Pavilion will be a gathering place for people to meet, learn about the arts programs on the island, enjoy a performance or lecture, and experience the interaction of art and the historic context of Governors Island. Our theme for the pavilion, the City of Dreams, points toward the future. If we imagine a future New York City where anything is possible, what would it look like? In our wildest and most optimistic dreams, what is the future of the city?

The current state of the world is such that both economic and natural resources are extremely limited. A new way of thinking is necessary to solve the problems that the world faces. Inevitably, the result will be a change in the basic practices that have driven the world to its current state. One place to start to activate and energize these changes is within the architecture and design community, where the movement toward sustainable design has only scratched the surface of what is possible and necessary.

The 2017 City of Dreams Pavilion Design Competition will be a two-stage process, in which a jury of leading architects and other industry professionals will review initial submissions and select a number of finalists. These finalists will receive comments and will have the opportunity to revise their proposals. The jury will meet again and select the competition winner in November 2016.

A. To Submit a Proposal:

- 1 Register by September 15, 2016, at <http://newyork.figmentproject.org/2016pavilion>. The competition entry fees (which will be applied to the costs of building and maintaining the winning entry) are as follows:

- Student entries - \$40
- Individual entries - \$90
- Group entries - \$140

After you have registered, you will receive a link to download a submission packet with the *City of Dreams Pavilion 2017 Design Guide* and reference images of Governors Island, previous City of Dreams Pavilion competition winners, and other FIGMENT projects that have been built previously on the island.

- 2 Submit your City of Dreams Pavilion proposal by 11:59pm ET on September 30, 2016. Proposals should be submitted via email to pavilion@figmentproject.org.
- 3 Our jury will meet and we will notify all finalists in mid-October 2016.

Entries are encouraged from individuals or teams of architects and non-architects of any age or experience level, provided they are prepared to carry out the project. Attribution of the winner and finalists will be given based on the names of the individuals who enter, rather than to any firm with whom they are affiliated.

B. Proposal Criteria

Instead of a typical design competition, the City of Dreams Pavilion asks entrants to consider how they will construct this temporary structure in the most efficient and sustainable way possible. Entrants should consider the entire lifecycle of building materials in their submission. Whether they do this by identifying companies that produce “cradle to cradle” products, garnering sponsorships from environmental or socially conscious groups, or re-using waste from construction sites, the materials used and the installation process should have as little impact as possible on the environment.

Entrants should submit where their materials are to come from, how their structures will be transported to the site, how they will eliminate waste during installation, and how they plan to disassemble and reuse the materials after the island closes for the season. In other words, entrants are being asked to consider using "borrowed" materials—from existing construction sites and from places where the materials can be returned after the season is over and the temporary structure is disassembled.

In the end, the goal is to create a pavilion that has a net zero impact and that serves as a prototype for a new, truly sustainable, way of thinking about design and construction.

We anticipate that the pavilion will be installed on the South Parade Grounds on Governors Island. However, this placement is pending approval and is subject to change.

Essential requirements of the proposal are as follows:

- Create a gathering place for 50 or more people, providing shade and rain cover
- Provide an integrated performance area/stage for small dance performances, music ensembles, and/or spoken word productions
- Consider the full lifecycle of the materials used—where they come from and where they will go after the island closes for the 2017 season
- Provide for the design and installation of the project, including sourcing all materials
- All materials must be able to be transported on the Coursen Ferry (11’ vertical clearance)
- The structure must be freestanding, and cannot penetrate the ground to a depth greater than 6”
- The design will require approval from a number of public agencies prior to installation, which may include the Trust for Governors Island, the Landmarks Preservation Commission (LPC), and the NYC Department of Buildings
- Include a budget that anticipates all costs of fabrication, transportation, installation, and de-installation

Optional considerations:

- How will the pavilion support educating the public about arts programs on the island?
- How will the pavilion support informal performances or lectures?
- What other kinds of activities could take place in the pavilion?

Selection criteria that the jury will consider:

- Proposal feasibility and buildability
- Lifecycle considerations and overall environmental impact
- Adherence to theme
- Design impact
- Innovative use of materials
- Visitor safety: the design should not give visitors the opportunity to climb or hang on the pavilion, or do anything that would be a risk to their safety

C. Proposal Requirements

As this is a blind competition, the entries should not disclose the name(s) of the entrant(s) in the content of the PDF file, only in the covering email, and in the name of the PDF file. Please do give your pavilion design a name, and include this name on each page of your submission. To ensure anonymity, it is important that the name for your pavilion is specific to the project, and does not have any relation to your personal name or the name of any firm or organization that you may be associated with.

Your entry should include a total of three (3) 11" x 17" pages in landscape format, saved into a single PDF file, as follows:

Page 1-2: Proposed Design

Please include graphics that show how your project will look, and how it will be constructed. Please feel free to use any graphic style that is comfortable for you: hand-drawn, Sketchup, Illustrator, CAD are all perfectly acceptable. The most important thing is clarity. Please make sure these pages are labeled with the name of your proposed design.

Page 3: Supporting documentation

- Please detail what materials you plan to use for the project, bearing in mind the full lifecycle of the materials used: Where do they come from? Where do they go after the project is de-installed?
- Please include a budget that shows your budget for materials and expenses. Designers will be reimbursed for materials purchased up to a certain amount yet to be determined, pending fundraising for this project.

Please name your submitted PDF file in the following manner:

"name of proposed pavilion – designer or team name.pdf"
(such as: "my pavilion – john smith.pdf")

Please do not have any security or password protection enabled on your PDF file.

The final entry should be submitted by the same individual (with the same email) who registered the submission. If a different individual submits the entry, please indicate in the email the name and email address of the original registrant.

By submitting a project, you are asserting that you are the creator of your design, and that you have the full rights or license to use any and all intellectual property contained therein. If your project is based on someone else's work or includes someone else's work, you must make sure

that you either get permission from the creator, or adapt the original concept significantly so that it would be legally considered to be entirely your work.

Please submit your final three-page PDF file by 11:59pm ET on September 30, 2016, to pavilion@figmentproject.org. You can expect to receive an email confirmation of this submission within 48 hours.

D. Project Timeline

Registration and submissions open:	May 15, 2016
Registration deadline:	September 15, 2016 (11:59pm ET)
Deadline for proposal submission:	September 30, 2016 (11:59pm ET)
First jury meeting to select finalists:	around October 1, 2016
Notification of finalists, with comments:	around October 15, 2016
Finalist proposal revisions due:	around November 15, 2016
Second jury meeting to select winner:	mid November, 2016
Winner notified:	by November 30, 2016
Public announcement of winner:	around December 1, 2016
Fundraising campaign begins:	around December 1, 2016
Fabrication and Construction Begins:	around March 15, 2017
Construction Complete:	around June 1, 2017
Public Opening:	Friday, June 9, 2017
FIGMENT NYC 2017:	June 9-11, 2017 (anticipated dates, pending approval)
Summer Season 2017 on Governors Island:	May 27-August 25, 2017
De-Installation:	August 26-27, 2017

About FIGMENT

FIGMENT catalyzes and celebrates an abundance of creativity and passion, challenging artists and our communities to find new ways to create, share, think, and dream. FIGMENT's annual participatory arts event began in New York City in 2007 and has expanded to include events in more than 10 cities around the US and in Australia and Canada. In New York, FIGMENT hosts an annual summer-long exhibition on Governors Island that includes interactive sculptures, an artist-designed minigolf course, a treehouse, and an architectural pavilion co-presented with ENYA and SEAoNY.

FIGMENT is a 501(c)(3) not-for-profit organization entirely funded by grants and individual donations. FIGMENT accepts no corporate sponsorship of any kind. FIGMENT is supported by public funds from the National Endowment of the Arts and the New York City Department of Cultural Affairs, in partnership with the City Council, as well as by the Fund for Creative Communities, supported by the New York State Council on the Arts and administered by the Lower Manhattan Cultural Council.

ABOUT ENYA

It is the goal of the **Emerging New York Architects Committee** to encourage membership, participation, and leadership in the AIA NY Chapter among intern architects, young architects (licensed 10 years or less), and emerging professionals in the fields of design and construction. The committee engages NYC's diverse emerging design professionals through lectures, design competitions, and networking opportunities, with a focus on Professional Development, Design Excellence, and Public Outreach.

Founded in 1857, the AIA New York Chapter is the oldest and largest chapter of the American Institute of Architects. The Chapter's members include over 4,600 practicing architects, allied professionals, students, and public members interested in architecture and design. The AIA New York Chapter is dedicated to three goals: design excellence, public outreach, and professional development.

ABOUT SEaONY

SEaONY is a member organization of the National Council of Structural Engineers Associations. Presently, 39 states and the District of Columbia have structural engineers' associations, the largest of which is SEAOC, Structural Engineers Association of California, which was founded in 1930 and presently has approximately 4000 members.

The association sponsors workshops, panel discussions, lectures, and seminars with the aim of addressing topics of interest and concern to structural engineers. Our membership, which is over 500 members, includes individuals from most major structural engineering design firms in New York State.

SEaONY also reaches out to other professionals, outside the engineering community, who work in related fields with common interests. Currently, 10% of our membership are affiliate members who come from a variety of disciplines such as geotechnical, civil, construction management, and architecture.

The purpose of SEaONY is to advance the art of structural engineering in New York by improving the flow of ideas and building the community of colleagues.
